Art Unit: 1763

1. Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The wording used in the first paragraph of claim 1 is written in a very confusing manner, and should be reworded. (i.e.-Applicant refers to the presence of both a dielectric layer, and an insulating layer in claim 1. An insulating layer, however, is a dielectric layer. Is applicant attempting to recite a first insulating layer, and a second insulating layer? If so applicant should reword this claim. Also, applicant should be cognant of their referral of a first insulating layer in claim 2, and a second insulating layer in claim 3 which are used to refer to different dielectric layers than those in claim 1. These different dielectric layers are used to fabricate a first set of spacers, and a second set of spacers on the gate electrodes.)

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

3. Any inquiry concerning this communication should be directed to examiner
